Referenze

/Laminam è una superficie di alto livello tecnologico ed estetico che offre performance d'eccezione in tutti gli ambiti delle applicazioni solide: edilizia, arredamento e interior design. Grazie alle sue rivoluzionarie proprietà fisiche e meccaniche, Laminam trova impiego ideale come rivestimento esterno, applicata su sistemi di facciate e nella riqualificazione di edifici, con risultati di rilievo nel risparmio energetico. Per la planarità e la facilità di lavorazione è un materiale dalle qualità architettoniche e creative uniche nell'arredamento d'interni e nel design. Vera e propria pelle, Laminam è utilizzabile come rivestimento di pareti e pavimenti in ambito sia residenziale sia pubblico, come superficie orizzontale personalizzata per top di cucina e mobili bagno, banchi di locali pubblici, tavoli da esterno, e come superficie verticale per porte e pareti divisorie.

References

/Laminam is a high tech, beautiful surface offering an outstanding performance in all fields of solid applications: building, furniture and interior design. Its revolutionary physical and mechanical properties makes Laminam ideal as an exterior covering, applied to systems of facades and for the renovation of buildings, with significant results in terms of energy savings. The flat surface of the slabs and the ease of working makes it a material whose architectural and creative qualities are unique in the world of furniture and interior design. Laminam is like a real skin and can be used as a covering for walls and floors in both residential and public applications, as a customised horizontal surface for kitchen worktops and bathroom fittings, counter tops in public spaces, outdoor tables and as a vertical surface for doors and partition walls.

Applicazioni / Applications >

Laminam® è adatta per numerose applicazioni sia in ambienti interni che esterni:

Edilizia:
Pavimenti e rivestimenti, pareti divisorie e attrezzate, controsoffitti, finiture e ripristini di superfici, rivestimenti coibentati, gallerie, metropolitane.

Sistemi di rivestimento di facciata:
Facciate ventilate, rivestimenti a cappotto o in incollaggio.

Arredamento:
Superfici per piani di bagni e cucine, armadi, tavoli, scrivanie, porte ed arredi in genere.

Settore navale:
Laminam, grazie alla sua leggerezza e alle elevate caratteristiche tecniche, può agevolmente essere impiegata per la realizzazione di pavimenti e rivestimenti di navi da crociera e imbarcazioni da diporto.

Pannelli compositi e strutturali:
Le lastre possono essere sovrapposte fra di loro o ad altri materiali per realizzare pannelli strutturali e compositi particolarmente resistenti ed estremamente leggeri, indicati in tutte quelle situazioni nelle quali sono necessarie un'elevata tenuta e una riduzione del carico di peso sulle superfici. /

Laminam® is suitable for many indoor and outdoor applications:

Construction Industry:
Floor and wall coverings, partition and storage walls, false ceilings, surface finishes and restoration, insulated panels, tunnels and undergrounds.

Façade cladding systems:
Ventilated façades, coatings, external claddings.

Interior design:
Surfaces of kitchen and bathroom tops, cupboards, tables, desks, doors and furnishings in general.

Shipbuilding sector:
The lightness and high technical properties of Laminam make it suitable for floors and walls of cruise ships and sports crafts.

Composite and structural panels:
The slabs can be placed on top of each other or over other materials to create extremely light and particularly resistant composite and structural panels suitable in all those cases that require high resistance and reduced weight load on the surface. /

Info tecniche / Technical infos >

Laminam 3

Laminam 3 è la lastra generatrice di base.
Dimensioni nominali: 1000x3000 mm
Spessore nominale: 3 mm
Rapporto minimo area utile / spessore: 8x10⁵

Utilizzo di Laminam 3
•Settore edile: rivestimento di pareti, soffitti, interni ed esterni tramite incollaggio
•Settore arredo e interior design /

Laminam 3 is the basic slab and starting point for other versions.
Nominal dimensions: 1000x3000 mm / 39.4"x118.1"
Nominal thickness: 3 mm / 0.12"
Minimum useful area/thickness ratio: 8x10⁵

Use of Laminam 3
•Construction industry: internal and external applications, for wall and ceiling covering, with adhesive
•Furniture industry and interior design application /

Laminam 3+

Laminam 3+ è costituita dalla lastra di base rinforzata strutturalmente con una stuoia in fibra di vetro applicata sul retro con apposito collante
Spessore nominale: 3,5 mm

Utilizzo di Laminam 3+
•Settore edile:
Pavimenti e rivestimenti, su massetti o pavimenti preesistenti tramite incollaggio, in ambienti residenziali non interessati da traffico intenso
•Pareti ventilate
•Pareti continue
•Settore arredo e interior design /

Laminam 3+ is the basic slab structurally reinforced with a fibreglass mat attached to the back with a special adhesive
Nominal thickness: 3.5 mm / 0.13" mm

Use of Laminam 3+
•Construction industry: residential flooring and wall covering application either on screed or existing walls and floors not affected by heavy traffic, through direct adhesion.
•Ventilated façades
•Curtain walls
•Furniture industry and Interior design application /

Laminam 5

Laminam 5 è lastra generatrice di base.
Dimensioni nominali: 1000x3000 mm
Spessore nominale: 5,6 mm

Utilizzo di Laminam 5
•Settore edile: rivestimento di pavimenti, su massetti o pavimenti preesistenti tramite incollaggio, in ambienti commerciali interessati da traffico intenso.
•Pareti ventilate (solo previa applicazione di fibra di vetro sul retro delle lastre)
•Pareti continue (solo previa applicazione di fibra di vetro sul retro delle lastre)
•Settore arredo e interior design /

Laminam 5 is a basic slab,
Nominal dimensions: 1000x3000 mm / 39.4"x118.1"
Nominal thickness: 5.6 mm / 0.22"
Use of Laminam 5
•Construction industry: residential and heavy commercial flooring application either on screed or existing floors through direct adhesion
•Ventilated façades (prior application of fibreglass mesh to the back of the slabs)
•Curtain walls (prior application of fibreglass mesh to the back of the slabs)
•Furniture industry and interior design application /

Laminam 5+

Laminam 5+ è costituita dalla lastra di base rinforzata strutturalmente con una stuoia in fibra di vetro applicata sul retro con apposito collante.
Dimensioni nominali: 1620x3240 mm
Spessore nominale: 6 mm

Utilizzo di Laminam 5+
•Settore edile: rivestimento di pavimenti, su massetti o pavimenti preesistenti tramite incollaggio, in ambienti commerciali interessati da traffico intenso
•Pareti ventilate
•Pareti continue
•Settore arredo e interior design /

Laminam 5+ is the basic slab structurally reinforced with a fibreglass mat attached to the back with a special adhesive
Nominal dimensions: 1620x3240 mm / 63.7"x127.5"
Nominal thickness: 6 mm / 0.23"

Use of Laminam 5+
•Construction industry: residential and heavy commercial flooring application either on screed or existing floors through direct adhesion
•Ventilated façades
•Curtain walls
•Furniture industry and interior design application /

Laminam 12+

Laminam 12+ è costituita dalla lastra di base rinforzata strutturalmente con una stuoia in fibra di vetro applicata sul retro con apposito collante

Superficie utile: 1620x3240 mm
Spessore nominale: 12,5 mm

Utilizzo di Laminam 12+

•Settore arredo e interior design: superfici per piani di bagni e cucine, tavoli, scrivanie ed arredi in genere
•Settore navale: materiale da finitura
•Settore edile***: sistemi di rivestimento di facciata /

Laminam 12+ is made up of a base slab, strengthened with a fibreglass blanket bonded on the back.
Processing surface: 1620x3240 mm / 63.7"x127.5"
Nominal thickness: 12.5 mm / 0.49"

Use of Laminam 12+
•Furnishing and interior design sector: flat surfaces for bathrooms and kitchens, tables, desks and furnishings in general
•Shipbuilding sector: finishing material
•Building sector***: wall covering systems /

*** Soft Touch non indicato per uso a pavimento / Soft Touch is not intended for flooring.

Voci di Capitolato / Technical Specifications >

Laminam 3

Porcellana laminata ottenuta per macinazione ad umido di materie prime argillose, rocce granitiche e metamorfiche, a componente feldspatica e pigmenti ceramici. Compattata da speciale formatura in compatter e sinterizzazione a 1200°C, con cottura ibrida. A bordo squadrato monocalibro. /

Laminate porcelain obtained by wet grinding of clayish raw materials, granite and metamorphic, feldspar-containing rocks and ceramic pigments. Compacted by a special shaping in compatter and sintering at 1200°C, with hybrid firing. With single gauge square edge. /

Laminam 3+

Porcellana laminata ottenuta per macinazione ad umido di materie prime argillose, rocce granitiche e metamorfiche, a componente feldspatica e pigmenti ceramici. Compattata da speciale formatura in compatter e sinterizzazione a 1200°C, con cottura ibrida. A bordo squadrato monocalibro e con rinforzo strutturale di materiale inerte (stuoia in fibra di vetro applicata sul retro). /

Laminate porcelain obtained by wet grinding of clayish raw materials, granite and metamorphic, feldspar-containing rocks and ceramic pigments. Compacted by a special shaping in compatter and sintering at 1200°C, with hybrid firing. With single gauge square edge and with a structural reinforcement in inert material (fiberglass blanket bonded at the back). /

Laminam 5

Porcellana laminata ottenuta per macinazione ad umido di materie prime argillose, rocce granitiche e metamorfiche, a componente feldspatica e pigmenti ceramici. Compattata da speciale formatura in compatter e sinterizzazione a 1200°C, con cottura ibrida. A bordo squadrato monocalibro. /

Laminate porcelain obtained by wet grinding of clayish raw materials, granite and metamorphic, feldspar-containing rocks and ceramic pigments. Compacted by a special shaping in compatter and sintering at 1200°C, with hybrid firing. With single gauge square edge and with a structural reinforcement in inert material (fiberglass blanket bonded at the back). /

Laminam 12+

Porcellana laminata ottenuta per macinazione ad umido di materie prime argillose, rocce granitiche e metamorfiche, a componente feldspatica e pigmenti ceramici. Compattata da speciale formatura in compatter e sinterizzazione a 1200°C, con cottura a gas e rinforzo strutturale di materiale inerte (stuoia in fibra di vetro applicata sul retro). /

Laminate porcelain obtained by wet grinding of clay raw materials, granite and metamorphic rocks, with a feldspathic component and ceramic pigments. Specially shaped in a compactor and sintered at 1200°C, with gas firing. Structurally reinforced with inert material (fiberglass blanket bonded on the back). /

Valori distintivi / Distinctive values >

Caratteristiche principali:

Dimensioni 1000x3000 mm / 1620x3240 mm

Resistenza agli attacchi chimici:
Laminam resiste ai solventi organici, inorganici, disinfettanti e detergenti. Si pulisce con estrema facilità mantenendo inalterate le caratteristiche della superficie; l'unico prodotto in grado di attaccare il prodotto è l'acido fluoridrico.

Resistenza all'usura:
Laminam resiste ai graffi e all'abrasione. Le sue proprietà rimangono pertanto inalterate anche dopo un uso intensivo e una pulizia frequente.

Elevata resistenza alla flessione:
Laminam presenta un elevato modulo di rottura.

Ingelività:
Grazie ad un assorbimento medio di acqua pari allo 0,1% Laminam resiste al gelo e si adatta a tutte le condizioni climatiche.

Resistenza al fuoco:
Laminam non contiene materie organiche, pertanto, resiste al fuoco e alle alte temperature. In caso d'incendio non sprigiona fumo e non emette sostanze tossiche.

Superficie igienica:
Laminam è totalmente compatibile con le sostanze alimentari in quanto non rilascia elementi in soluzione. Non consente l'insorgenza di muffe, batteri e funghi.

Proprietà cromatiche:
Priva di pigmenti organici, Laminam resiste ai raggi UV. I colori non subiscono alcuna alterazione, anche se sottoposti a variazioni delle condizioni climatiche.

Eco-compatibilità e riciclabilità:
Laminam è un prodotto totalmente naturale. Non cede elementi all'ambiente e può essere facilmente macinato e interamente riciclato in altri processi produttivi.

Antigraffiti:
Laminam è la prima superficie ceramica antigraffiti, si pulisce facilmente e non viene intaccata nemmeno dalle vernici più tenaci.

Idoneo sia in ambiente interno che esterno
Laminam può essere utilizzata come superficie in entrambe le destinazioni: eventuali sbalzi di temperatura dell'ambiente esterno e l'esposizione nel lungo periodo all'umidità non danneggiano la superficie. /

Main features:

Dimensions 1000x3000 mm / 1620x324 0mm

Chemical resistant
Laminam resists to organic and inorganic solvents, disinfectants and detergents. It can be easily cleaned without affecting its surface characteristics; the only product that can attack the slabs is hydrofluoric acid.

Wear resistant:
Laminam is highly scratchproof and resistant to abrasion. The properties of the slabs remain unchanged even after intensive use and frequent cleaning.

High flexural strength:
Laminam has a high modulus of rupture.

Frost resistant:
Laminam's average water absorption is 0.1% therefore it is frost resistant and suitable for any weather condition.

Fire resistant:
Laminam does not contain organic material therefore it is resistant to fire and high temperatures. In the event of fire it does not release smoke or toxic substances.

Hygienic surface:
Laminam is perfectly suitable for food substances since it does not release elements in solution. It does not allow the formation of mould, bacteria and fungi.

Chromatic properties:
Laminam does not contain organic pigments and is resistant to UV rays. Even if subjected to severe climate changes, the colours remain stable.

Eco-friendly and recyclable:
Laminam is a totally natural product. It does not release any elements into the environment and can be easily milled and recycled in other manufacturing processes.

Graffiti proof:
Laminam is the first graffiti proof ceramic surface; it is easy to clean and even the strongest paints can be easily removed.

Suitable for indoor and outdoor applications
Laminam can be used as a surface for interior or exterior décor. Sudden changes in temperature out of doors and the exposure to long-term humidity will not damage the surface. /
